

Immigrants into California

[International Migration]

- ✓ Mexico is a southern country in North America.
- ✓ Mexicans migrate to California, as they have low-living standards, and are migrating to urban area where wages are higher.
- ✓ People in Mexico migrate illegally to USA in search of work and about 1 and 2 billion migrate illegally to USA every year.
- ✓ Migrant workers seek employment enduring poor living conditions and low wages.
- ✓ The jobs there are to be low skilled and not requiring extensive English. The migrants take up the harder, dirtier, more monotonous and dangerous jobs.
- ✓ Mexicans are viewed by some as a threat, to low skilled Americans and a drain upon the nation's welfare system.
- ✓ California's large economy and sharing the border makes a threat for USA.
